EQUIP Xavier Claramunt

Reinventing, approaching people and making constant proposals, that's how clear things are for EQUIP, this versatile team of architects and industrial designers led by Xavier Claramunt. For these professionals, the development process is just as important as the end product. In a desire to offer constant innovation, they have just launched a new approach to projects – “Responses”. This initiative

combines the disciplines of architecture, interior design, industrial design and jewellery, areas where the team has been active since 1990. Besides opening their own office in China in 2005, EQUIP Xavier Claramunt also works together with Ferran Adrià, Hospes Hoteles, BMW, Chic&Basic and Cosmic.
